

Kyser J. Clark – Penetration Tester

(330) 575-8005 | Kyser@KyserClark.com | [linkedin.com/in/KyserClark](https://www.linkedin.com/in/KyserClark) | [KyserClark.com](https://www.KyserClark.com) | github.com/KyserClark
Secret Clearance | Available: April 23, 2024 | Current Location: Anchorage, Alaska | Highly Relocatable

Career Summary

I am a passionate cybersecurity professional with more than four years of active duty U.S. Air Force cyber defense operations experience specializing in offensive security, ethical hacking, penetration testing, and red teaming. I want to transition out of the military and into the private sector. My mission is to make cyberspace better & safer for everyone by committing to lifelong learning, sharing knowledge with the community, and inspiring others to do the same.

- B.S. Cybersecurity (WIP)
- CISSP
- OSCP (WIP)
- eJPT
- CEH
- PenTest+
- CySA+ (Results Pending)
- CCNA
- Cloud+
- Linux+
- Security+
- Network+
- Top 0.4% TryHackMe
- Home Lab & Self-Learner

Core Competencies & Skills

- Security Assessment Tools & Techniques
- System, Network, & Web App Exploitation
- Threat & Vulnerability Analysis
- Frameworks & Methodologies
- Governance, Risk, & Compliance (GRC)
- Cloud Computing & Virtualization
- Automation, Programming, & Scripting
- Architecture & Infrastructure Security
- Troubleshooting & Problem Solving
- Reporting & Communication Skills

Professional Experience

Cyber Defense Operations (1D771) – Active Duty United States Air Force – Worldwide

April 2018 – Present

- Led network inspection; identified 105 errors to harden system security, enabling 1,500 Air Mobility missions.
- Managed six classified message incidents; sanitized secret data leaks for 57 systems generating 15,600 sorties.
- Managed Squadron IT Asset program; inventoried/tracked 400 items valued at \$600,000 across six facilities.
- Admin for Global Air Transportation and Execution System; supported 150 workstations & 183 system users.
- Technician for 3,100 joint service personnel with access to a telecommunications network worth \$55 million.
- Coordinated workflow by synchronizing seven work centers and completed 5,000 trouble tickets in two years.
- Sustained 8,000 network devices enabling 43 F-16 fighter aircraft furthering North Korean nuclear deterrence.

Construction Laborer – Full Time Apache Industrial Services – Canton, Ohio

August 2013 – April 2018

- Painting, sandblasting, fireproofing, asbestos abatement, and lead abatement in oil refineries & chemical plants.

Education

Bachelor of Science (BS) in Cybersecurity Management & Policy University of Maryland Global Campus (UMGC) Minor in Business Administration | 3.95 GPA

Projected August 2023 (114/120 Credits)

Associate of Science (AS) in Information Systems Technology Community College of the Air Force (CCAF)

October 2022

Professional Certifications

(ISC)² Certified Information Systems Security Professional (CISSP)	October 2022
Offensive Security Certified Professional (OSCP)	Projected May 2023
eLearnSecurity Junior Penetration Tester (eJPT)	February 2023
CompTIA Network Security Professional (CNSP) Security+ / PenTest+ / Cybersecurity Analyst (CySA+)	Projected May 2023
CompTIA Network Vulnerability Assessment Professional (CNVP) Security+ / PenTest+	December 2022
EC-Council Certified Ethical Hacker (CEH)	January 2023
Cisco Certified Network Associate (CCNA)	September 2021
CompTIA Secure Cloud Professional (CSCP) Security+ / Cloud+	November 2022
CompTIA Cloud Admin Professional (CCAP) Network+ / Cloud+	November 2022
CompTIA Linux Network Professional (CLNP) Network+ / Linux+	October 2021

Home Labs, Self-Learning, & Projects

TryHackMe

tryhackme.com/p/KyserClark

- In the top 0.4%
- 161 rooms completed
- Level 13 – God (max)
- 22 badges
- Eight learning path certs
- 267-day ongoing streak
- Two room writeups

100 Days of Code (Python)

kyserclark.com/blog/categories/100-days-of-code

- 240 hours
- Four video courses
- Read 2.2 books
- Five larger projects
- 176 small programs
- Network automation lab

Additional

- Cybersecurity content creator
- Avid infosec podcast listener
- Packet Tracer & Active Directory Labs
- github.com/KyserClark/Hacking-Notes
